August, 2007 Amendment to Page 8 (Section VI, Subsection A):

A. Maximum Cost of Abatement

The maximum recommended cost of abatement is \$46,000 per benefited developed property. Benefited residential developed properties include all single-family dwellings (i.e., apartments, manufactures homes, condominiums, detached homes), whether occupied by the owner or a renter, that receive a 5 dBA noise reduction from proposed mitigation measures. For benefited developed properties such as parks, schools, hospitals, and churches, noise abatement will be considered on a case by case basis, as specified in ADOT's noise guidelines.
